

The Children's Therapy Service is an integrated team made up of occupational therapists, physiotherapists, speech and language therapists and therapy assistants. We provide specialist therapy services for children and young people, between the ages of 0 -19, to support them to achieve their potential. We work all across the county of Lincolnshire in a variety of locations.

If your child is referred to us, you will have contact with a qualified occupational therapist, physiotherapist, or speech and language therapist. All our therapists are registered with the Health Care Professions Council ([www.hcpc-uk.org](http://www.hcpc-uk.org)) as well as their relevant professional bodies. Our therapists are supported by therapy assistants and assistant practitioners who often work alongside the therapists to provide support to children and their families. All members of our team are DBS (Disclosure Barring Service) checked to an extended level.

Team Around the Child (TAC) is a group of people who want the best for the child or young person. Who will work together in an open and honest way to create a plan of support.

TAC starts when a worry is raised about a child or young person and coordinated support is required.

A Lead Professional is the person who has the best relationship with the child and family. They complete the Early Help Child and Family Assessment. This role is reviewed regularly.

## Contact TAC
